

Silicon Laboratories and Airoha Settle Infringement Lawsuit for Silicon Labs' FM Radio Technology

December 2, 2011 1:00 PM EST

AUSTIN, Texas--(BUSINESS WIRE)-- Silicon Laboratories Inc. (Nasdaq: SLAB) today announced a satisfactory settlement of its litigation against Airoha Technology Corporation. Under the settlement, Airoha has purchased a license on mutually acceptable terms and conditions.

Silicon Laboratories Inc.

Silicon Laboratories is an industry leader in the innovation of high-performance, analog-intensive, mixed-signal ICs. Developed by a world-class engineering team with unsurpassed expertise in mixed-signal design, Silicon Labs' diverse portfolio of patented semiconductor solutions offers customers significant advantages in performance, size and power consumption. As a leading developer of RF technology in CMOS, Silicon Labs has shipped over one billion radio ICs worldwide and has developed an extensive broadcast patent portfolio which includes more than 200 patents and applications. For more information about Silicon Labs, please visit www.silabs.com.

Airoha Technology Corp.

Airoha Technology Corp. is a fabless company that develops highly integrated circuits for wireless communication solutions. The company is committed to providing high performance and highly integrated RF/mixed signal integrated circuit solutions. The product portfolio includes FM receiver, DVB-S tuner, WiFi transceiver and Bluetooth SOC. To learn more about Airoha, please visit www.airoha.com.
